Control of Potomac Electric Power Company Endangered by Investigation.

RATES MAY BE AFFECTED

amissioners Believe La Follette Anti-Trust Law Gives Authority to Act.

By JOSEPH P. ANNIN.

An attempt to take from the Washing on Railway and Electric Company on tree of the Potenna Electric Power Com-pany is expected to grow out of the investigation of the former corporation which has been ordered by the District Public Utilities Board.

The board's inquiry into the condition of the atreet railway company will comto the general public, but, it is under-stood, the probe will be afmitted. The Washington Railway and Sheeris Com-pany will be represented by irresiness. Edge and Treasurer Mam, and J. J. Darimston, as counsel. Besides the three utilities commissioners. Corporation Counsel Course H. Syme, Statisticism John G. Williams, and Capt. Schier, executive officer of the board, will rep-resent the District.

Authitude of Officers of the Authors of Search and the what the hearings will develop depends in large part upon the Authors of the District officials had no information year coing to do or refuse to do axis the railisation to what the railway min are going to do or refuse to do axis the railisation the direction of an attack upon the raiss of Ceedit, Cash, and Wearing Appared.

Significant of the railway and power companing is a step by the Board in the direction of an attack upon the raiss over the light and current. The implication is that the Commissioners believe the power company is hiding its large search in the power company is hiding its large search in the power company to hiding its large search in the power company to hiding this unearned income to pay extra dividence and cast about lisself a false appearance of presperity. Minou the amount rais over to the railway company now appear and though to justifie the extra the company now appear and though to justifie the railway company now appear and though to justifie the accordance of \$800.000, either in cash or seventure—the extra time of the power company now appear and though to justifie the railway company now appear and though to justifie the railway company now appear and though to justifie the railway company now appear and though to justifie the railway company now appear and though to justifie the railway company now appear and though to justifie railway to present the railway company now appear and though to justifie railway to present the results of the same time to present the results of the railway company now appear and though to justifie has a fact of the law which seems to bear most directly upon the power company now appear and though to justifie the railway company now appear and though to justifie the railway company now appear and though to justifie the railway company now appear and the company to the power company now appear and though to justifie the railway company now appear and the company to the power company now appear and t

More Details Needed.

The Commissioners made it clear yesterday that, while they considered the indings of fact contained in the Williams report of grave importance, they do not accept them as facts without further investigation. The hearings which commence today are for the purpose of going into the company's affairs in greater detail than Mr. Williams, single-handed, was able to accomplab.

The Williams report, it was learned yes-
